### ICE RACING SCHEDULE CHANGE

Due to the poor ice conditions during the first part of the ice racing season we are forced to amend the schedule to include every weekend between now and the week before Rondy. It is still the intent to the club to consider the ice racing as a part of the qualifying for the Rondy so please note the changes and get out there if you need to get ice time -- for those who don't have to worry about qualifying please come on out and get some time in and help the new(old) people sharpen their skills...
