Endurance Ice Race Results:

Thanks to the Big Lake Winter Carnival we had a track plowed and ready for the race.

The track was a shade tight, somewhat short, full of Hondas, and short of traditional cars and drivers. Everyone that raced had fun and there were good crowds. Much can be done with the ice racing towards the development of the club and the development of drivers -- please note the articles in both On Track and Auto Week in the last few weeks.

- 2nd Place -- 2 Dale Hirsch & Chad (Samurai) Yashitomi

For Your Information Section

1. The Club is losing a good, new and dedicated driver/member. Dan Wilhelm has accepted the opportunity offered by his employer to see, live and work in one of the worlds unknown corners. There is no car racing there and Dan has to sell his racecar.

Toy #1: Opel (read yellow & black) go fast machine -- dependable 4 cyl with loads of spares (everything you need to go racing) and the price is right -- \$2,000 or best offer. An excellent starter car for the new driver or someone getting back in... new

Toy #2: The fun classic. The summer street car dream -- Yellow Bugeye Sprite very clean with webers and rollbar. Make Dan an offer.

Dan we will miss you and hope to see you back soon. Good Luck!

The club needs a newsletter? Okay, we need a newsletter based on the number of people that are on the mailing list and the number of people I see at meetings the only way the majority of the club members get information is thru the newsletter. What do you want to see? What format? Please let me know.
